

Firms collaborating with school

WHY ?

*The first input.:
Textile wanted !*

- ✓ **Money...money!** *Adding resources to the 1000 euro Nanoyou budget : know how, materials...*
- ✓ **Sustainability** *investigating more deeply the role of nanotechnologies: ...samples needed! (From a previous Comenius EU project)*
- ✓ **More experiments** *increasing the number of experiments through the whole Physics curriculum*

Nanoyou Consortium:

The second input.:Browsing through first generation pilot schools experience and new ideas !

Gecko effect biorubber and its adhesive properties: measuring forces

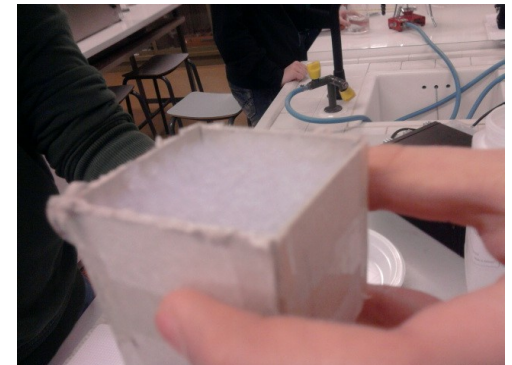

Asking for more :-)! Sending calls across Europe ...

Ecobuilding: testing insulating materials

Nanoyou Consortium:

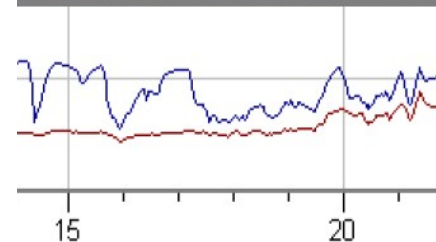

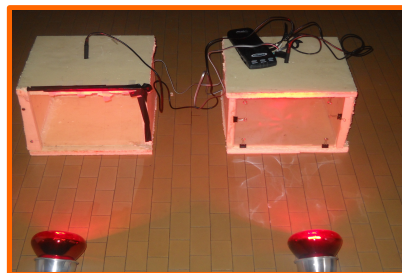

Funded by the European Community's Seventh Framework Programme

... and USA !

aeroclay
material advancement for industry

INDUSTRIAL NANOTECHNIC
THE GLOBAL LEADER IN NANOSCIENCE SOLUTIONS

STUDENTS:

- ✓ A great feeling of being part of a ...researching global community
- ✓ "Real life stuff"
- ✓ Being useful to their own school ...polimeric sun screens against classroom green house effect
